## Our Town, Our Area, the Future We are Working to Make it Better

At local level our focus is on how we can improve the quality of life of people in our local communities. Whatever our views on the major national and international issues facing our country such as Brexit, international conflict or climate change, our local options for influencing them are limited but they do have serious effects at a local level.

We work to make our communities better in many ways, be it the small things like active litter pickers, helping to plant daffodil bulbs; or the bigger local issues campaigning for change.

There are ambitious plans to redevelop more parts of the town centre on display with responses invited.

### Worried about the Victoria Infirmary?

Do the plans from Mid Cheshire Hospital Trust to leave the Infirmary site change your views of the Town Centre scheme?

### No-one's view on our communities matters more than yours.

## Lib Dems Call for Action on Leasehold Scandal

Leaseholds, and the associated ground rent contracts are increasingly becoming a problem for individuals who entered into them often without proper understanding of the potential implications and without comprehensive legal guidance on the matter. There are two reasons for this.

1. Buyers who were promised the opportunity to purchase the freehold to their property after 2 years have discovered that the price they were quoted to purchase the freehold had risen by anywhere up to 10 times the original figure after only 2 years, following the sale of the freehold to a private company without their knowledge.
2. Homes have been rendered potentially unsellable due to spiralling ground rent charges which have led to mortgage companies refusing to lend due to rejecting the ground rent clause. Ground rents have been known to as much as double in just a few years.

In the worst cases, home owners have been hit by both issues.

Liberal Democrats are working at national level to end the practice but also to a solution for those already trapped in the situation.

## Daniela Parker selected for Weaver Vale

Daniela Parker has been selected as the Prospective Parliamentary Candidate for Weaver Vale for the Liberal Democrats.

### Lives in Northwich

Daniela lives in Northwich with her husband and young daughter and is passionate about a number of issues including healthcare – and in particular improving the provision of mental health Services. She also has a keen interest in the criminal justice system, including both the rehabilitation of offenders and the experience of victims and witnesses.

### People's Vote

The daughter of an Italian father and a British mother, Daniela classes herself as pro-European, and has been campaigning for an 'Exit-from-Brexit', believing strongly that the decision should be returned to the people by a People's Vote.

## More help and joined up thinking is needed...

2% increase in council tax to pay for social care only scratches the surface. Proper provision for Local Authority funded care in the home and in Care Homes will allow the up to 20% of hospital beds presently 'bed blocked' to be cleared. That will allow patients in NHS funded hospital A & E departments to be moved through more quickly avoiding ambulance queues at the doors of A & E and improve ambulance response times.

## The NHS Should Be Properly Funded

Lib Dems are demanding for proper funding of the universally admired NHS to allow doctors, nurses and health professionals to get on with their essential and demanding jobs. When we have trained enough nurses and doctors, then we can cut agency (bank) staff bills. Until then the 'market rates' will apply.

Liberal Democrats have called for equal priority in diagnosis and funding for mental health patients.

## As We Grow

### We will need better facilities for local people

Much new housing is affordable and welcome.

Our local villages have seen a lot of housing development in the past few years, with probably more to come, Winnington Urban Village is due to grow to 1200 plus homes with more land being cleared, but also thousands in Cuddington, Hartford, Rudheath and elsewhere.

More housing should mean better community facilities as happened in Kingsmead some years ago, but as we have seen that does not always follow.

Developers will naturally try to minimise such contribution in the interests of their shareholders; in addition, any funds they do contribute remain within Cheshire West and Chester Council and be spent on facilities improvements in those communities.

Local Lib Dems require a direct link between new developments. and the improvement of local facilities.

## And Finally

With new revelations every day about soft- hard - or no deal Brexit it is becoming increasingly clear that the best deal is the one we have now.

A UK as a full and fully engaged member of the EU is the right role for Britain in the increasingly small planet we inhabit. That an Exit from Brexit - an end to the frantic efforts to leave at all costs - is the sensible, non-selfish and longer sighted way forward in a reforming EU for a (not perfect) reforming UK.
